FUNDAMENTALS OF TECHNOLOGY TRANSFER

Welcome to Fundamentals of Technology Transfer October 2017

Thank you for joining us on this three-day programme, designed to help you understand the life cycle of technology transfer in academic settings.

The technology arising from academic research has, in many ways, defined the modern world. From computing, the internet, through to antibiotics, cancer medicines and vaccines, almost all of mankind has benefited from these advances. We travel faster and safer, live longer and in better health thanks to the work of generations of academic researchers.

However, those of us working in the academic sector know that research results rarely represent anything like a market-ready technology. Transforming these results into the everyday products that are used by millions of people requires substantial development: something that is always expensive and risky, and can usually only be done with the involvement of a commercial partner.

Companies know that academic technologies are going to continue to be a key source of the next generation of groundbreaking products, and yet getting the latest research findings taken up by the commercial world remains hugely difficult. The challenge for the technology transfer professional is to drive that uptake, so this course has been designed to equip you with the basic information to take up and succeed in that challenge.

We have gathered a range of world-class contributors including commercialisation practitioners, patent attorneys, industry experts and professional negotiators. Together, we aim to provide three days of interactive presentations, group work, role plays and panel discussions designed to give you the key skills and knowledge to identify an early stage invention, evaluate its potential and start the journey towards a commercial deal. We never take this journey alone and we hope that you will also learn more about where to secure help and assistance including your network of contacts, some of whom you will get to know through this course.

We are very much looking forward to meeting and working with you in Loughborough.

Sue Sundstrom, University of Bristol Course Director

Gavin Smith Co-Course Director

FUNDAMENTALS OF TECHNOLOGY TRANSFER

PROGRAMME

TUESDAY 10 (October 2017: Burleigh Court, Loughborough	
1830-2030	Registration, drinks reception and buffet dinner	Pro
WEDNESDAY	11 October 2017: Convention Room, Burleigh Court	
0855-0920	Course introduction – Sue Sundstrom	
0920-1005	Opportunities: identification & evaluation - Andrew Walsh How can you spot a really great opportunity? How do you decide what to do next?	
1005-1100	Patentable IP – Matt Dixon, HGF Ltd What role can patents play in commercialising technology? What should you consider when thinking about filing an application and what happens next?	
1100-1130	Refreshments and networking	
1130-1200	Patent Searching: prior art and freedom to operate – <i>Matt Dixon, HGF Ltd</i> Are other people's patents going to stop you getting a granted patent? or even worse stop you ever selling your technology?	
1200-1300	Non-patent IP – Mark Pearce, Mills & Reeve LLP IP is not all about patents. Other forms of IP provide the basis of many successful deals.	
1300-1400	Lunch	
1400-1500	Non-patent IP exercise – <i>Mark Pearce, Mills & Reeve LLP</i> Copyright and other forms of IP can be complex. We will tackle some of the important considerations in this exercise.	
1500-1530	Refreshments and networking	
1530-1630	Marketing and technical sales – <i>Stuart Thomson, Health Enterprise East</i> Finding your commercial partner can be challenging. We will examine what channels are available and consider how to present technologies to potential partners.	
1630-1730	IP Case Studies – <i>Gavin Smith & Stuart Thomson, Health Enterprise East</i> An opportunity to tackle some real examples of technologies and to learn from the TT professionals who worked on them.	
1900-2100	Networking event including dinner and drinks at Burleigh Court.	

FUNDAMENTALS OF TECHNOLOGY TRANSFER

PROGRAMME

THURSDAY	12 October 2017: Convention Room, Burleigh Court
0830-0930	Route to market: Mind the Gap(s) – Sue Sundstrom The availability of funding to support your technology development before you take it to market can make the difference between success and failure. What sources of funding are available and what do you need to get it?
0930-1030	Licensing Key Issues – Paul Maclennan, Anderson Law LLP An introduction to the key concepts and terms in a licence agreement. How can the terms of the agreement support the commercialisation objectives?
1030-1100	Refreshments and networking
1100-1230	Licensing Key Issues exercise – Paul Maclennan, Anderson Law LLP An opportunity to tackle the real issues around a licence agreement.
1230-1330	Lunch
1330-1430	Industry and Academic Technology: A Panel Discussion – David Astles Ionix Advanced Technologies, Karin Conde-Knape Johnson & Johnson and Demelza Farrer IBM. Why is industry interested in University Technology? What do they want? What factors lead to deals happeningor not?
1430-1530	Licensing Terms Exercise – Sue Sundstrom
1530-1600	Refreshments and networking
1600-1630	Academic perspectives – Sue Sundstrom & Dr Anthony Croxford, University of Bristol Some reflection on those at the centre of it all – the academic innovators. What do they want out of the process?
1630-1730	A Long Term View – <i>Tim Cook</i> Insight from a Technology Transfer veteran on equipping yourself with the skills to increase your effectiveness and credibility in order to successfully market yourself and access resources.

FRIDAY 13 October 2017: Convention Room, Burleigh Court

- 0830-0945Who's the Boss case study Facilitated by Gillian Davis, Tim Francis, Gavin Smith & Sue Sundstrom
A technology transfer professional will often find themselves at the centre of a negotiation
between multiple parties. Can you find a way through this tricky situation?
- 0945-1015 Refreshments and networking
- 1015-1430Deal making and negotiation (includes working lunch) Robert Marshall, Robert Marshall &
AssociatesAll deals are the product of a negotiation. Understanding the different negotiation styles
(including your own) can be the key to a successful outcome.

1430-1445 Summary and close – *Sue Sundstrom & Gavin Smith*

If you'd like to know more about becoming a Registered Technology Transfer Practitioner (RTTP) please speak to a member of the team or email <u>info@praxisunico.org.uk</u>, and we will be happy to help.
